Come In and See THE NEW Self-Feeder Lilliston NOW ON DISPLAY

The New Lilliston Peanut Picker---an entirely different machine---offers the advantages that you have always wanted in peanut-picking machinery.

The very latest and foremost development is fully exhibited in a few of the following important features:

- 1. Self-Feeder, eliminating the labor cost and insures a constant flow of peanuts with maximum capacities at all times.
- 2. Hay and vines are all discharged in one place.
- 3. All-Metal Picking Screen, an exclusive and very important feature.

4. More simple in design and construction, weigh-

ing 800 pounds less than former model. You are invited to attend the permanent display.

SIX CYLINDER CHEVROLETS on the road in less than eight months!

Less than eight months have beautiful new bodies-which are elapsed since the first Chevrolet Six was delivered into the hands of an owner-and already there are more than a million sixcylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars-

Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor-but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

available in a variety of colorsrepresent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer

of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today!

SPECIAL RADIO PROGRAM The Chevrolet Motor Company will present a special radio program Wednesday, August 14, over the Columbia network, 8—8:30, Eastern Standard Time, celebrating the millionth Six-Cylinder Chevrolet delivered in less than 8 months' time.
